

Project Manager – **dr. Bartosz Trzaskowski** and Co-Principal Investigator – **prof. Karol Grela**

are looking for candidates to work in a scientific project:

„Anionic Carbenes and Borylanions: Tuning the properties of ruthenium metal complexes in olefin metathesis”

programme Beethoven 2 supported by National Science Centre

to work in Organometallic Synthesis Laboratory, Centre of Biological and Chemical Science, Faculty of Chemistry, University of Warsaw

as a:

Post-Doc

Requirements:

- PhD degree in organic chemistry, organometallic chemistry or similar (PhD obtained no sooner than 7 years before the starting year of the employment in the project),
- very good knowledge of organic synthesis, organometallic chemistry and catalysis using transition metal complexes. An additional advantage will be the knowledge of boron chemistry,
 - very good command of English,
 - scientific achievements documented by publications in recognized journals,
- experience in laboratory work (appreciated work experience based at Schlenk technique or glove box),
 - knowledge of analytical techniques utilized in organic chemistry (NMR, MS, IR).

Your task will be synthesis of boron compounds for utilization as a ligands in transition metal complexes.

Candidate should send all required documents (CV, Cover Letter and at least one Recommendation Letter) together as one e-mail letter by **24th of September 2018** to karol.grela@gmail.com (please add “Post-doc Beethoven 2” in the subject line).
